Small but Powerful!

New Concept Bubble toothpaste

- ✓ Versatile: it can be used not only as toothpaste but also as mouthwash.
- ✓ Strong and white teeth: it could be helpful in making your teeth white.

The Main Ingredients

• Made with safe and natural ingredients

- Xylitol : Dental care and recovery of damaged tooth surface
- Lemon Oil : Glossy and whitening effect, and prevention of tooth pigmentation
- Chamomile Extract : Removal and relief of infection
- Grapefruit Seed Extract : Prevention of halitosis and control of pathogenic fungi and yeast
- Sage Extract : Disinfection and antibacterial effects of gum diseases(gingivitis) and oral cavity
- Green Tea Extract : Catechin for prevention of tooth-decay

• Prevention of dental caries and whitening

- Fluoride : Creates layer of fluoride to protect tooth surface from harmful bacteria
- Allantoin : Recovery and treatment of damaged tooth tissue
- Hydroxyapatite : Whitening effect and reinforcement of tooth tissue

Effectiveness of Aquapick toothfoam that was certified by KFDA(Korea FDA)

- ① Prevention of dental caries, removal of bad breath
- ② Prevention of periodontal disease
- ③ Cool feeling in mouth
- ④ Tooth whitening

Use It This Way!

- ① Lightly shake it 2~3 times before use.
- ② Pump the toothfoam into mouth 1~2 times.
- ③ Gargle for 30 seconds and rinse with water.
- ④ Or brush your teeth with a toothbrush.

Tip: Refill product(150ml) is economical because you can recharge with it.

Using Aquapick oral irrigator with the toothfoam is recommended

How to use

We recommend to use Aquapick oral irrigator with 1~2 pumps of the toothfoam in the water tank.
